

DATA SHEET

P455 Rotational twin view camera

Overview

- Offers forward view and remote side viewing capabilities
- Digital video processing for sharper crisper images
- Maintenance free internal white LED illumination
- The dual sensor facility provides outstanding survey capabilities for inspections
- Robust and flexible
- Can negotiate 90° bends in 100mm pipelines

TECHNICAL SPECIFICATION

Diameter	59mm
Pipe inspection size	75mm to 450mm
Weight	1.1kg
Material	300 series stainless steel
Waterproofing	11 bar / 150 psi
Operating temp	-10° - 40° celcius
Movement	360°
Power	25 - 50v
Resolution	450 TVL
Lens	6.35mm focal length
Sensitivity	Better than 1 lux

Applications

- Inspect pipes 75mm to 450mm in diameter
- Underwater inspection
- Zone 1 hazardous environments
- Divers range of applications
