

Overview

- Offers forward view and remote side viewing capabilities
- Digital video processing for sharper crisper images
- Maintenance free internal white LED illumination
- Dual sensor
- Robust and flexible
- Can negotiate 90° bends in 100mm pipelines

TECHNICAL SPECIFICATION	
Diameter	59mm
Pipe inspection size	75mm to 450mm
Weight	1.1kg
Material	300 series stainless steel
Waterproofing	11 bar / 150psi
Operating temp	-10° - 40° celsius
Movement	360°
Power	25 - 50v
Resolution	450 TVL
Lens	6.35mm focal length
Sensitivity	Better than 1 Lux

Applications

- Municipal pipe inspection
- Toxic environment, hazardous area or underwater
- Reactor vessel surveying
- Foreign object search and retrieval
